

Website Development Quotation for Your Dream Interior

We're pleased to present our comprehensive proposal for your interior design product listing website. This quotation outlines two distinct development approaches—WordPress and custom code base

Project Overview

We understand your need for a sophisticated digital platform that effectively showcases your interior design portfolio and product catalogue. Our approach offers two parallel development tracks to ensure the perfect solution for your business needs.

Both options will deliver a user-friendly, responsive, and scalable platform designed to enhance your brand presence and drive customer engagement.

Scope: WordPress Development

Custom Theme

Bespoke WordPress theme designed to perfectly align with your interior design brand identity and visual language.

Product Catalogue

Comprehensive product listing with intuitive categories, advanced filters, and intelligent search functionality.

Integration Options

Seamless eCommerce capabilities or inquiry forms depending on your business requirements.

Premium Plugins

Strategic implementation of high-quality plugins for SEO optimisation, robust security, and superior performance.

Scope: Custom Code Base Development

1 Built From Scratch

Fully bespoke website constructed with clean, efficient HTML, CSS, JavaScript and backend technologies.

2 Tailored Systems

Custom product listing architecture with sophisticated filtering and search capabilities.

3 Bespoke Admin

Intuitive administrative interface designed specifically for your product management workflow.

Key Features for Both Solutions

Rich Product Catalogue

Stunning display of your products with high-quality images, detailed descriptions, and transparent pricing information.

Intuitive Navigation

User-friendly interface with powerful search functionality that helps clients quickly find exactly what they're looking for.

Responsive Design

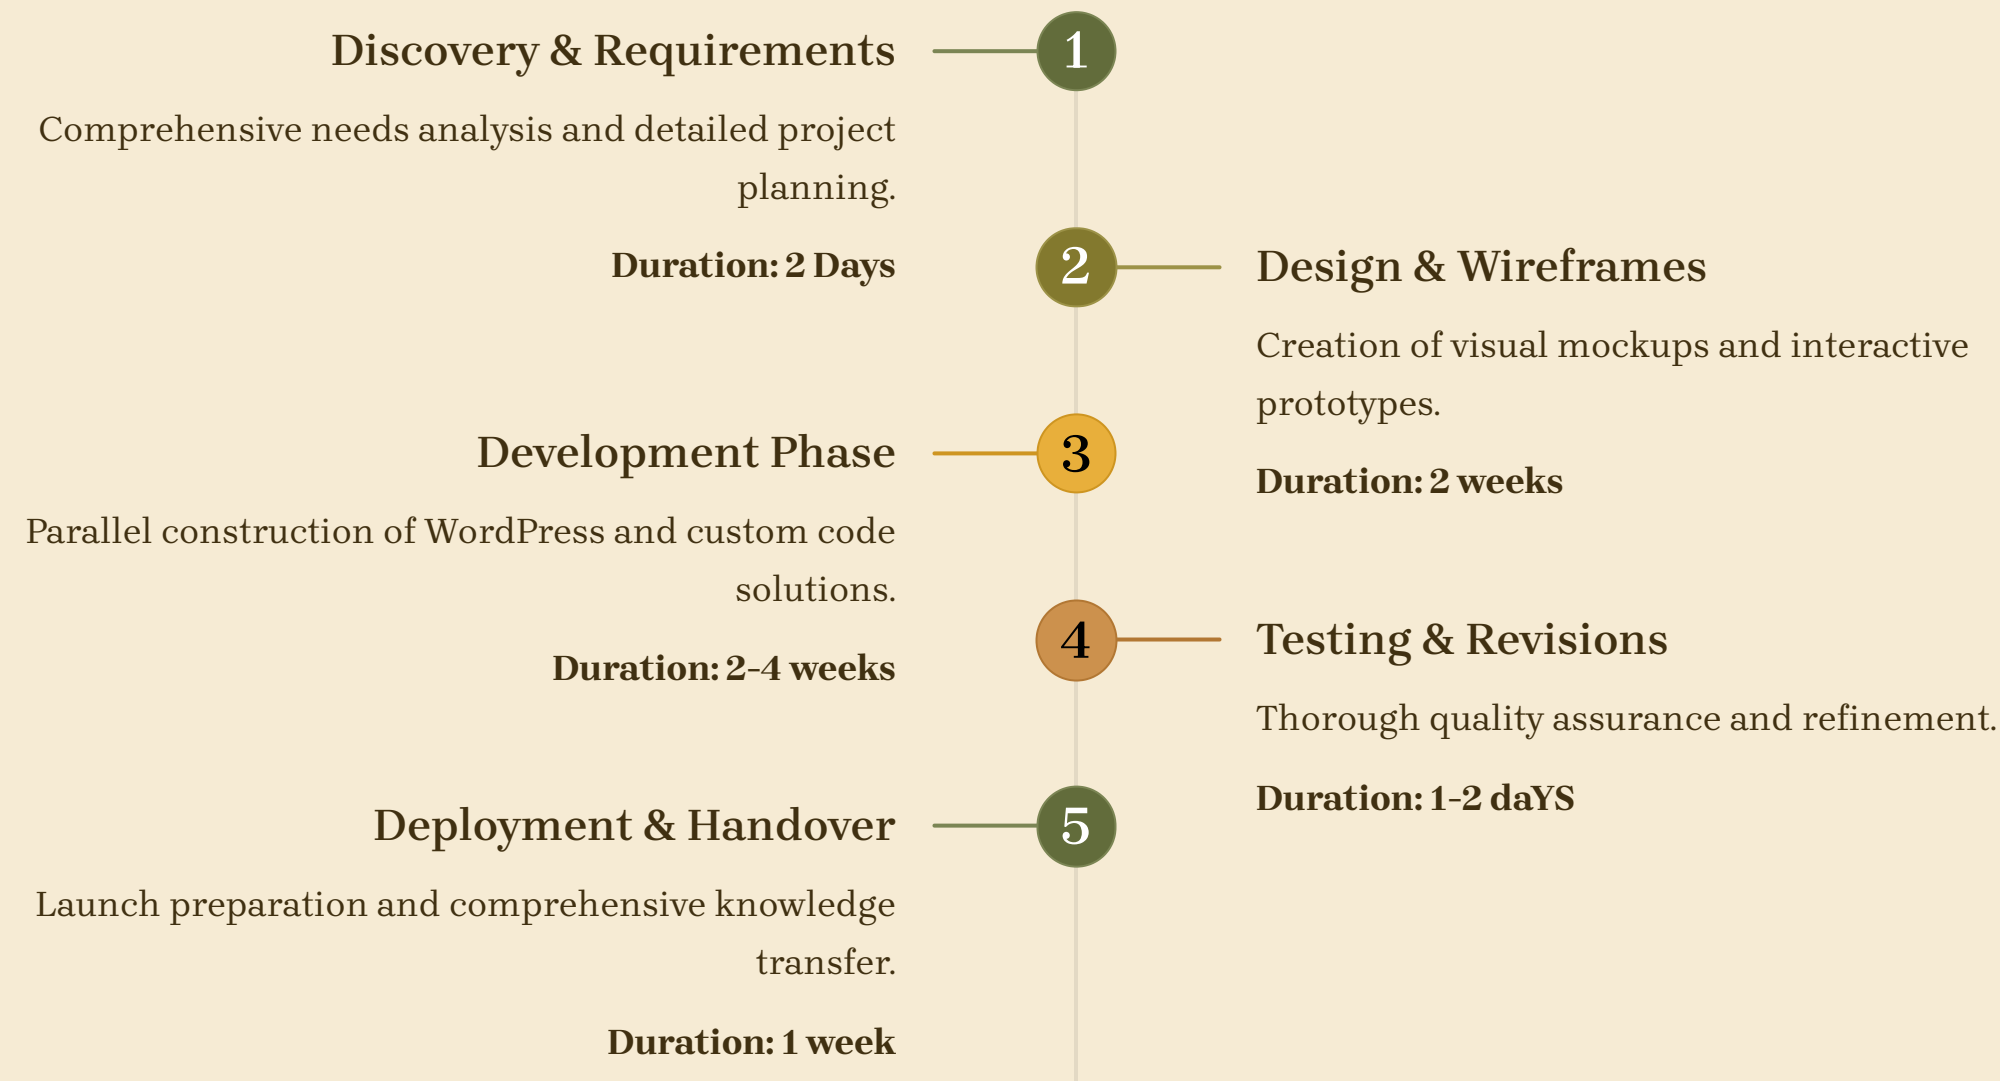

Mobile-first approach ensuring your website looks and functions flawlessly across all devices and screen sizes.

Security & Performance

Robust security measures and performance optimisation to protect your data and provide excellent user experience.

Project Timeline & Milestones

Total Estimated Project Duration: 5-6 weeks

Pricing Breakdown

Service	Cost (GBP)
WordPress Development	₹ 20,000
Custom Code Base Development (Static)	₹ 2,5000
Custom Code Base Development (Dynamic)	₹ 35000

This comprehensive investment covers all aspects of your website development, from initial design through to final deployment and handover.

Payment Terms

Initial Deposit

- 50% upfront payment
- Due before project commencement
- Secures your place in our development schedule

Final Payment

- 50% balance payment
- Due upon project completion and client approval
- Prior to website launch and handover

 Payment methods: Bank transfer, credit card.

Deliverables & Terms

Complete Website

Fully functional product listing website built to the agreed specifications and quality standards.

Source Materials

All source files, documentation, and training materials for effective site management.

Support Period

30 days of post-launch technical support to ensure smooth operation.

All intellectual property rights transfer to you upon receipt of final payment. Additional maintenance or feature requests beyond the scope will be billed separately.

Summary & Next Steps

Review Proposal

Examine both development options and determine which approach best suits your business requirements and objectives.

Initial Payment

Submit the 50% deposit to secure your place in our development schedule and initiate the project.

Contract Signing

Once you've made your decision, we'll prepare a formal contract outlining all agreed terms and specifications.

Project Commencement

Our team will begin work immediately, starting with the discovery phase and keeping you informed at every milestone.
